NAME:_____

1. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
   *M*(–6, 3), *N*(–3, 3), *P*(–5, 7)

[1] _____

3. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
    M(–8, 3), *N*(–2, 3), *P*(–4, 5)

[3] _____

2. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
   *M*(–7, 2), *N*(–1, 2), *P*(–1, 6)

[2] _____

4. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
   *M*(–7, 2), *N*(–3, 2), *P*(–3, 8)

[4] _____

NAME:_____

5. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
   $M(-8, 2), N(-1, 2), P(-8, 7)$

[5] _____

7. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
   $M(-6, 3), N(-1, 3), P(-3, 5)$

[7] _____

6. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
 $M(-6, 3), N(-2, 3), P(-6, 8)$

[6] _____

8. Graph the triangle whose vertices have the coordinates given below. Then draw its reflection in the *x*-axis.
 $M(-7, 2), N(-3, 2), P(-3, 6)$

[8] _____

[1] _____

[2] _____

[3] _____

[4] _____

[5] _____

[6] _____

[7] _____

[8]
